07 Laissez parler votre miroir et pliez les ailes du plus bel avion.

08 Bravo ! Vous n'avez plus qu'à admirer le résultat et planter un narcisse...

Ici

Là (Attention,
collez bien droit)

**COLLEZ
UN MIROIR**

Ici aussi

Voilà,
c'est presque fini

Et hop !
On recommence

Là encore
(Ne dépassez
pas ; ça ne
va pas faire joli)

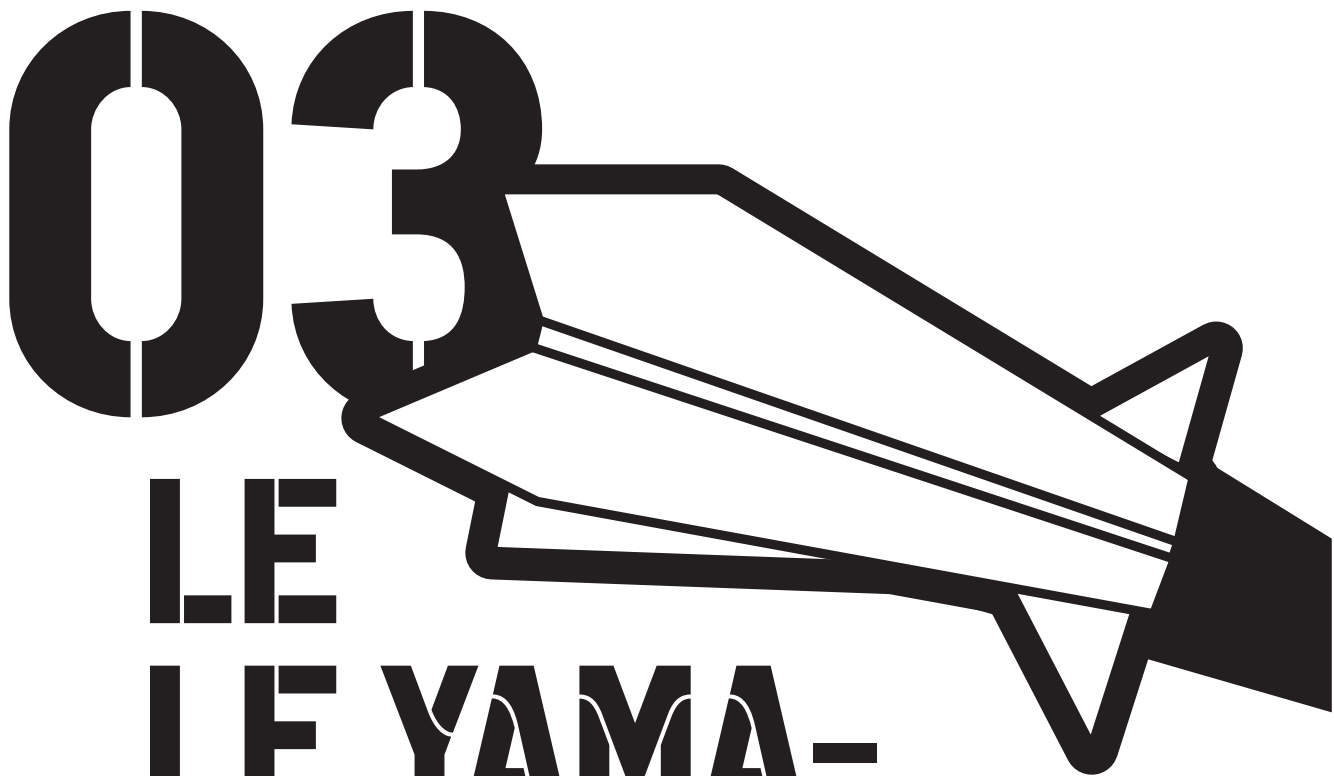

ET OUI, IL Y A L'AUTRE CÔTÉ

Et puis ici

Voilà, maintenant c'est vraiment fini
(N'oubliez de regarder comme vous êtes beau)

LE

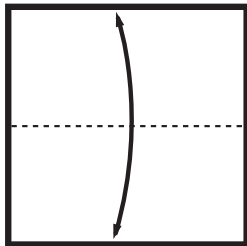

NEWTON

niveau de difficulté : pour les matheux à lunettes

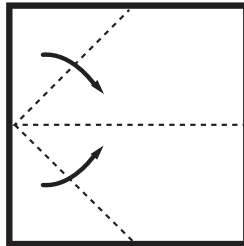

05

LE NEWTON

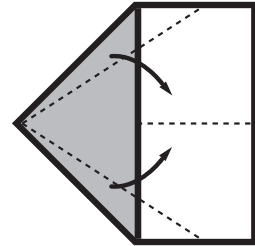

Niveau de difficulté : pour les matheux à lunettes

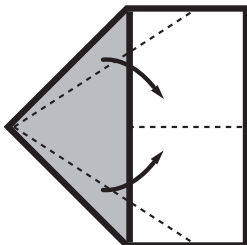

01 si $4n + 3$ est un carré parfait

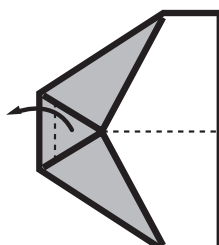

02 , $\sum k \approx \Delta$ tel que $4n+3 = k^2$

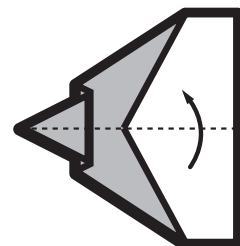

03 $n = (k^2-3)/4 = (k/2)^2 - 3/4$

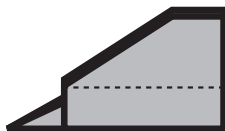

04 si k est pair, $k/2$ est entier et son carré aussi

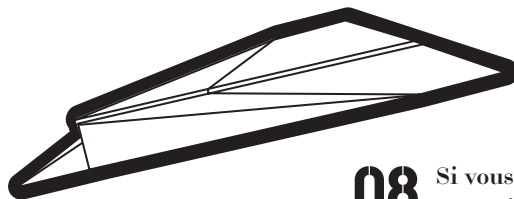

05 si k est impair $(k/2)$ est de la forme $N + 1/2$ et son carré de la forme $N^2 + N + 1/4$

06 or $1/4 - 3/4$ ne sera jamais entier

07 Donc, un carré est congru à 0 ou 1 modulo 4

08 Si vous n'avez pas compris, recommencez encore une fois !
